About Us

Since 2000, We have represented Unique interior finishing materials and office furniture in corporation of most successful European and US manufacturers selected based on the quality of its products, Standards and technical specifications to finding solutions for different buildings types (Hospitals, schools, Banks, Hotels, Clubs, Offices, Faculties, … etc.) in all aspects related to interior finishing, As well as finishing for exterior We believe that a good interior environment helps the people to get life more great by merging our products with their needs by corporate with (Consulting, Designers and contractors)

Company Vision

As CEO of the company, I have seen us progress from a small Company to a large reputable Company. The reason for this progression lies not only in hard work and perseverance, but also in our commitment to serving our customers and clients in the best possible way. Ethics, professionalism, commitment, and quality are the four pillars upon which our company stands. We have taken on construction projects in all major areas of Egypt, including Healthcare, schools, Banks, Hotels, Clubs, Offices, Faculties, etc., in different cities. Our route to success has been highly dependent on our competent team of professionals and our philosophy of upholding client satisfaction.

Company Vision

Our long-term goals include expanding our operations to additional areas of Egypt, thereby increasing our business opportunities. We believe that with committed staff and the employment of advanced project management techniques, we have a recipe for sustainable growth and achievement. We are very proud of our employees, whose dedication, talent, and loyalty have made United Engineers & Contractors an important force in the Construction market.

Comapny Mission

We enhance people’s dreams, ideas by empowering the construction community with interior finishing materials to create a healthy environment

Company Strategy

• Design Concept develops, executes, and markets products based on fieldwork practices.

• Unified by a tailored ERP system, we are always moving in a fast direction.

• More than 10 Business members can specify, consult, and design.

• Submit working drawings, TDS, draught specifications, and compliance sheets.

• The supply chain team manages external orders, shipments, and inventory.

• Under the supervision of an in-house architectural, interior design, and technical office, our certified applicators are always prepared to implement our materials throughout the Egyptian region.

Health, Safety & Environment

Design Concept safety program (including health and environmental aspects) is considered an important factor in determining the award of contracts. Concern for employees, communities, and the local environment will be a Guiding principle in all decisions.

Design Concept uses only qualified competent applicators, i.e., Applicators that provide their services are properly trained, well equipped, and e-cogently supervised:

1. Quality of materials, construction methods, and nominal resistance to natural calamities shall be ensured.
2. Fire-resistant materials should be used.
3. Asbestos material shall be prohibited for use in any part of the construction.
4. Relevant insulation materials shall be provided to prevent the ingress of extremities in weather conditions for both heat and cold. All doors and windows shall be lockable.
5. Effective communication and understanding of responsibilities and standards are prerequisites for quality Contractor safety

Our Products

Ceiling, Acoustic, Dry Wall and Cladding
